

Mohammed Ashik KP

Full Stack Developer | Software Engineer

HeyAashiq@gmail.com | [LinkedIn](#) | [Website](#) | +91 8137911604

SUMMARY

Full Stack Developer with 4+ years of experience in designing and building responsive, scalable web applications using modern JavaScript ecosystems. Proficient in transforming complex business challenges into efficient and elegant software solutions. Specializes in full-stack development, leveraging React and Node.js. Ready to take full ownership of features, from ideation to deployment, ensuring robust and maintainable solutions.

SKILLS

- **Programming Languages:** JavaScript, TypeScript, HTML, CSS/SCSS
- **Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, Redux, GraphQL
- **Databases:** PostgreSQL, MongoDB, Firebase, MySQL
- **Cloud & DevOps:** AWS (S3, Cognito, EC2, Cloudfront), Digital Ocean
- **Tools:** Webpack, Git, GitHub, Jira, Figma
- **Styling Frameworks:** Tailwind CSS, SCSS
- **Development Practices:** Micro Frontend Architecture, REST APIs, Agile Methodologies

EXPERIENCE

Software Engineer

Neoito Technologies Pvt Ltd.

Kochi/Remote

December 2020 - Present

- Demonstrated exceptional career progression from entry-level frontend developer to full-stack software engineer through consistent performance and skill development.
- Led full-cycle development of enterprise-grade accounting software (Aasani), taking comprehensive ownership of critical product modules.
- Orchestrated **micro front-end architecture** implementation, enhancing application modularity and maintainability.
- Actively contributed to **internal development ecosystem projects**, improving the codebase, adding ready-to-use modules, and enabling efficient development of micro frontends and services.
- Managed simultaneous product and client project development.
- Engineered deployment automation, **reducing operational overhead by 80%** and significantly improves development workflow efficiency.
- Consistently delivered high-quality solutions in agile environments, meeting and exceeding project requirements.

PROJECTS

Aasani - Accounting Software

Team Lead

- Spearheaded development of a comprehensive accounting web application with end-to-end feature ownership.
- **Guided a team of 4 developers**, showcasing strong technical leadership.
- Designed and implemented advanced financial reporting functionalities, including automated generation of critical financial statements.
- **Reduced development time by 70%** through strategic script automation and architectural improvements.
- Optimized complex database queries, reducing execution times from over **3 seconds to 1 second**, significantly enhancing API response times by **60%**.

Happilee - WhatsApp Business CRM

Full Stack Developer

- Contributed to an innovative WhatsApp chatbot and CRM platform supporting **150+ business clients**.
- Developed an advanced catalog-management system using WhatsApp Business APIs by Meta (Facebook).
- Optimized web application performance by resolving complex re-rendering issues and implementing **API call optimization** techniques, significantly reducing application load times.
- Demonstrated expertise in complex **third-party API integration** and scalable SaaS solution development.

BodBx - Fitness App Dashboard

Full Stack Developer

- Played a pivotal role in developing this web application using Nextjs.
- Leveraged AWS S3 for secure, scalable storage, optimizing data handling.
- Implemented data visualization with interactive graphs and charts.

EDUCATION

Institute Of Printing Technology & Govt. Polytechnic College,Shoranur

Diploma In Computer Engineering (2017 - 2020)

Government Higher Secondary School, Ottapalam

Higher Secondary Education In Computer Science (2015 - 2017)
